EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Robert C. Faber on April 14, 2006.

The application has been amended as follows:

The title of the abstract has been changed to --Abstract of the Disclosure--.

The following is an examiner's statement of reasons for allowance: Kwon (US 2002/0175529, figures 3 and 4b) is the closest art of record and teaches a system for holding an accessory in the form of a handle to a sheet 10 including a clip 4 with first arms 40 bearing against one side of the sheet 10 that extend from the base, which contains a threaded aperture 48, and second arms 44 that alternate with the first arms 40 and have ends 45 that bear against the opposite side of the sheet 10. The difference is that the first arms are not formed with "the first end formations comprising ... between neighboring arms" (claim 19, lines 15-25). There is no suggestion in the art of record to modify the first arms of the fastener of Kwon to have all of the structure of the quoted passage in combination with the other limitations of the claim as this structure facilitates flexing of the first set of arms when these arms are clipped into an opening, without resistance in the upper area, which permits one to clip the clip the device into the opening with little effort while still providing a strong securement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
